1. The attached photograph was taken at the MAGDEBURG-South (M 53/D 69) airfield.

15 October 1949

2. As previously observed, only three biplanes were parked at the MAGDEBURG-South airfield. A small air force detail was stationed at the airfield. It was supplied by Soviet Army motor vehicles with numbers of the B 6-88-xx series. A new two-wire telephone line connected the airfield with the restricted area on the southern border of the town of MAGDEBURG which was occupied by Soviet Army troops.

Comment:

Condition and occupation of the MAGDEBURG-South airfield has not changed recently. There is still no air unit stationed there. The photograph taken at the airfield confirms that the landing field is intact and that one hangar is located at the field.
